

E-Z Grip® Port Caps & Renatron Reprocessing Connector

Dialysis reuse managers asked us at RPC to design and manufacture dialyzer port caps that were easier to use and reuse. We listened and are pleased to offer our E-Z Grip® Port Caps. A partial list of the many E-Z Grip® benefits is shown below. In addition, RPC offers an **O-ring free** reprocessing connector for use with the Renatron. This connector can be used with or without the RPC Sani-lok® Barrier Adapter.

E-Z GRIP® DIALYZER PORT CAPS

- ◆ Easy to grip, rigid plastic for fast installation & removal.
- ◆ Compatible with heat and germicide reuse.
- ◆ No phthalate esters such as DEHP plasticizer.
- ◆ Caps & connector have no O-rings to leak, or fall out of place.
- ◆ Save money compared to Fresenius caps with O-rings.
